

Site name: Ballynamona Bog and Corkip Lough SAC IE0002339

County: Roscommon

Site Specific Conservation Objective (SSCO) Ecological Attributes

Active raised bogs [7110]

- 1 Habitat Area
- 2 Habitat Distribution
- 3 High Bog Area
- 4.1 Hydrological regime: water levels
- 4.2 Hydrological regime: flow patterns
- 5 Transitional areas between high bog and adjacent mineral soils (including cutover areas)
- 6.1 Vegetation quality: central ecotope, active flush, soaks, bog woodland
- 6.2 Vegetation quality: microtopographical features
- 6.3 Vegetation quality: bog moss (Sphagnum) species
- 7.1 Typical ARB species: flora
- 7.2 Typical ARB species: fauna
- 8 Elements of local distinctiveness
- 9 Negative physical indicators
- 10.1 Vegetation composition: native negative indicator species
- 10.2 Vegetation composition: nonnative invasive species
- 11 Air quality: nitrogen deposition
- 12 Water quality

7120 The long-term aim for Degraded raised bogs still capable of natural regeneration is that its peat-forming capability is re-established; therefore, the conservation objective for this habitat is inherently linked to that of Active raised bogs (7110) and a separate conservation objective has not been set in Ballynamona Bog and Corkip Lough SAC

7150 Depressions on peat substrates of the Rhynchosporion is an integral part of good quality Active raised bogs (7110) and thus a separate conservation objective has not been set for the habitat in Ballynamona Bog and Corkip Lough SAC

Turloughs [3180]

- 1 Habitat area
- 2 Habitat distribution
- 3 Hydrological Regime: flood, duration, frequency, area, depth; permanently flooded area
- 4 Soil type: area
- 5 Soil nutrient status: nitrogen and phosphorus
- 6 Physical structure: bare ground
- 7 Chemical processes: calcium carbonate deposition and concentration
- 8 Water quality: nutrients; colour; phytoplankton; epiphyton
- 9 Active peat formation
- 10.1 Vegetation composition: area of vegetation communities
- 10.2 Vegetation composition: vegetation zonation
- 11.1 Vegetation structure: sward height
- 11.2 Vegetation structure: turlough woodland
- 12 Typical species:terrestrial, wetland and aquatic plants, invertebrates and birds
- 13 Fringing habitats: area

Bog woodland [91D0]

- 1 Habitat area
- 2 Habitat distribution
- 3.1 Vegetation composition: positive indicator species
- 3.2 Vegetation composition: negative indicator species
- 4.1 Woodland structure: cover and height of birch
- 4.2 Woodland structure: dwarf shrub cover
- 4.3 Woodland structure: ling cover
- 4.4 Woodland structure: bryophyte cover
- 4.5 Woodland structure: tree size classes
- 4.6 Woodland structure: senescent and dead wood

Site name: Ballynamona Bog and Corkip Lough SAC2339

Habitat/Species:Active raised bogs [7110]

(SSCO): To restore the favourable conservation condition of [7110] in SAC 2339

Habitat/Species: Bog Woodland (91D0)

(SSCO): To restore the favourable conservation condition of [91D0] in SAC 2339

No.	Ecological Requirements (Attributes as per SSCO)	Pressure /Threat (EU Code 2025)	Pressure/ Threat Ranking	EU Conservation Measure Type (EU Code 2019-2024)	Measure Category	Conservation Measure	Delivery mechanism	Public Authority with statutory responsibility	Implementation timeframe2	Integration with high level plans/policy:
25	1. Habitat Area 2. Habitat Distribution 3.1. Vegetation composition: positive indicator species 3.2. Vegetation composition: negative indicator species 4.1 Woodland structure: cover and height of birch 4.2 Woodland structure: dwarf shrub cover 4.3 Woodland structure: ling cover 4.4 Woodland structure: bryophyte cover 4.5 Woodland structure: tree size classes 4.6 Woodland structure: senescent and dead wood.	All/Other Relevant Threats and Pressures	Low	MA06 Stop mowing, grazing and other equivalent agricultural activities e.g. burning (incl. restore or improve habitats)	Statutory	Enforcement of Section 39 and 40 of the Wildlife Act which states it is an offense to cut, burn, or destroy vegetation on uncultivated land, including hedges and ditches, between March 1st and August 31st in any year. Monitoring and Site Inspections were carried out by Regional staff at this site. No enforcement cases were taken at this site under this regulation.	Wildlife Act 1976	Department of Housing, Local Government and Heritage (DHLGH)/National Parks and Wildlife Service (NPWS)	1976+	Wildlife Act 1976
26	1. Habitat Area 2. Habitat Distribution 3.1. Vegetation composition: positive indicator species 3.2. Vegetation composition: negative indicator species 4.1 Woodland structure: cover and height of birch 4.2 Woodland structure: dwarf shrub cover 4.3 Woodland structure: ling cover 4.4 Woodland structure: bryophyte cover 4.5 Woodland structure: tree size classes 4.6 Woodland structure: senescent and dead wood.	All/Other Relevant Threats and Pressures	N/A	MB05 Adapt/change forest management and exploitation practices	Statutory	A clear-fell licence is required to fell or remove trees at this site.	Forestry Acts 1988 to 2014	Department of Agriculture Food and the Marine (DAFM)/Forestry Division	1988+	All Government plans and policy documents are cognisant of these protections.
27	1. Habitat Area 2. Habitat Distribution 3.1. Vegetation composition: positive indicator species 3.2. Vegetation composition: negative indicator species 4.1 Woodland structure: cover and height of birch 4.2 Woodland structure: dwarf shrub cover 4.3 Woodland structure: ling cover 4.4 Woodland structure: bryophyte cover 4.5 Woodland structure: tree size classes 4.6 Woodland structure: senescent and dead wood.	All/Other Relevant Threats and Pressures	N/A	MB05 Adapt/change forest management and exploitation practices	Statutory	Consent is required for the felling of trees or removing timber, including dead wood, if not covered by other regulations.	European Union Habitats (Ballynamona Bog and Corkip Lough Special Area of Conservation 002339) Regulations 2021	Department of Housing, Local Government and Heritage (DHLGH)/National Parks and Wildlife Service (NPWS)	2002+	All Government plans and policy documents are cognisant of these protections.
28	1. Habitat Area 2. Habitat Distribution 3.1. Vegetation composition: positive indicator species 3.2. Vegetation composition: negative indicator species 4.1 Woodland structure: cover and height of birch 4.2 Woodland structure: dwarf shrub cover 4.3 Woodland structure: ling cover 4.4 Woodland structure: bryophyte cover 4.5 Woodland structure: tree size classes 4.6 Woodland structure: senescent and dead wood.	All/Other Relevant Threats and Pressures	N/A	MB05 Adapt/change forest management and exploitation practices	Statutory	Consent is required for cutting, uprooting or otherwise removing plants, if not covered by other regulations. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]	European Union Habitats (Ballynamona Bog and Corkip Lough Special Area of Conservation 002339) Regulations 2021	Department of Housing, Local Government and Heritage (DHLGH)/National Parks and Wildlife Service (NPWS)	2002+	All Government plans and policy documents are cognisant of these protections.
29	1. Habitat Area 2. Habitat Distribution 3.1. Vegetation composition: positive indicator species 3.2. Vegetation composition: negative indicator species 4.1 Woodland structure: cover and height of birch 4.2 Woodland structure: dwarf shrub cover 4.3 Woodland structure: ling cover 4.4 Woodland structure: bryophyte cover 4.5 Woodland structure: tree size classes 4.6 Woodland structure: senescent and dead wood.	All/Other Relevant Threats and Pressures	N/A	MH03 Reduce impact of other specific human activities	Administrative	Control of activities, if not covered by other regulations, which could negatively impact on Ballynamona Bog and Corkip Lough SAC.	European Union Habitats (Ballynamona Bog and Corkip Lough Special Area of Conservation 002339) Regulations 2021	Department of Housing, Local Government and Heritage (DHLGH)/National Parks and Wildlife Service (NPWS)	2002+	All Government plans and policy documents are cognisant of these protections.
